Professional Summary

Results-oriented **Data Analyst** with hands-on experience in **SQL, Power BI, Python (Pandas, NumPy)**, and **Excel** for data analysis, reporting, and KPI dashboard development. Adept at transforming complex datasets into actionable business insights that support data-driven decision-making. Microsoft Certified Data Analyst Associate with a strong foundation in data visualization, metrics analysis, and stakeholder communication — eager to contribute analytical expertise to a high-impact team.

Technical Skills

Analytics & Reporting: SQL (Joins, Subqueries, Aggregations), Python (Pandas, NumPy), Excel (VLOOKUP, Pivot Tables, Power Query)

BI & Visualization: Microsoft Power BI (DAX, Data Modeling, Dashboards), Tableau, KPI Reporting, Data Visualization

Methods: A/B Testing, Root Cause Analysis, Data Cleaning & Transformation, Statistical Analysis, Business Intelligence

Certifications: Microsoft Certified: Data Analyst Associate | Deloitte Australia – Data Analytics | Tata – GenAI Powered Data Analytics

Projects

Loan Analysis Dashboard — *Tools: Power BI, SQL, Excel, DAX*

- Built an interactive Power BI dashboard to analyze loan portfolio performance, enabling data-driven recovery strategy decisions.
- Identified a critical **53% loan recovery gap** and surfaced the online channel as the top-performing segment at **36% contribution**.
- Visualized KPIs including disbursement trends, default rates, and product-level metrics to support executive reporting.

Banking Dataset Analytics — *Tools: Python (Pandas, NumPy), SQL, Power BI*

- Cleaned and transformed 50,000+ banking records using Python, improving data quality and standardizing inconsistencies.
- Built dashboards to visualize KPIs and metrics; A/B testing analysis contributed to a **~17% improvement in engagement metrics**.

Work Experience

Data Analyst Intern — *Analytics Benchmark Trainings, Hyderabad*

Jul 2025 – Jan 2026

- Analyzed banking datasets using SQL and Python to identify trends and deliver data-driven insights for business decision-making.
- Developed interactive Power BI dashboards to visualize KPIs and operational metrics, enabling real-time performance tracking.
- Wrote optimized SQL queries for data extraction and manipulation, significantly reducing manual reporting effort.
- Conducted A/B testing analysis; findings contributed to a **~17% improvement in engagement metrics**.
- Cleaned and transformed large datasets using Pandas and NumPy, ensuring high data accuracy and integrity.

Technical Support Professional — *Foundever, Hyderabad*

Apr 2024 – Jul 2025

- Analyzed recurring support issues and produced structured reports that drove process improvements and reduced ticket volume.
- Collaborated cross-functionally to escalate and resolve high-priority technical cases within SLA requirements.
- Applied data-driven problem-solving to troubleshoot, document, and communicate resolutions to stakeholders.

Education

Bachelor of Commerce – Computer Applications

Osmania University, Hyderabad, Telangana, India

Aug 2021 – Jun 2024
